

Faull, Joseph Horace

July 1915 - Feb. 1916  
Gra

President's Office.

TO WHOM IT MAY CONCERN -

The lantern slides in the possession of Professor J. H. Faull of the Department of Botany, University of Toronto, are the property of the University of Toronto and are being made use of by Prof. Faull for purposes of illustration only, in lectures to be given by him during July at Cornell University, on special invitation from that Institution. These slides are from the University stocks and will be returned to the University without delay as soon as Prof. Faull's course of lectures is finished.

University of Toronto,  
Toronto, July 2nd, 1915.

President.

President R. A. Falconer,  
University of Toronto,  
Toronto.

Dear President Falconer,

I recommend that the following  
be appointed as Assistants in Botany for the present  
academic year:-

Messrs. G. H. Duff and E. H. Moss, at  
\$100.00 and Miss I. Underhill, at \$50.00.  
<sup>BA.</sup>

Very truly yours,

*J. H. Faull.*

February 2nd, 1916

Professor J. H. Faull,  
Department of Botany.

Dear Professor Faull:

At the meeting held yesterday afternoon of those members of the University staff in Science and Applied Science who were called to consider the proposal of the Royal Canadian Institute the report from the Faculty of Applied Science on this matter was received and considered. A small committee was appointed to draw up a final report to be presented to the Board of Governors. If you have any statement that you would like placed in that report concerning the relation of your Department to the proposal suggested by the Royal Canadian Institute I shall be glad to have it immediately.

Yours sincerely,

President.

President R. A. Falconer,  
University of Toronto,  
Toronto.

Dear President Falconer,

I recommend the renewal of  
Miss I. Underhill's appointment as Assistant in  
botany for the Easter term at a remuneration of \$50.00

Very truly yours,

J. H. Faull.

1915-1916?

INDUSTRIAL RESEARCH

Dear Mr. President:

Granted the workers and the means, the Department of Botany of the University of Toronto is in a position to direct investigations on such topics as the following:

- (1), Fungi with reference to (a) their destructive action (including such subjects as, decay of timber, diseases of plants, injury to fabrics, food, etc., in storage or in manufacture), (b) their elimination (c) their utilization.
- (2), The effects of gases, smoke, etc., on vegetation.
- (3), The structure of woods, and their identification.
- (4), Vegetable fibres in paper, cloth, etc.
- (5), Vegetable food of game birds and fish.
- (6), Plants poisonous to man and animals.
- (7), Composition of feeds, etc., and the identification of impurities in grain, etc.
- (8), The plants of coal, lignite, peat.
- (9), Soils - in their relation to vegetation.

Very truly yours,

## DEPARTMENT OF BOTANY.

Granted the workers and the means, the Department of Botany of the University of Toronto is in a position to direct investigations on such topics as the following:

- (1) Fungi with reference to (a) their destructive action (including such subjects as, decay of timber, diseases of plants, injury to fabrics, food, etc., in storage or in manufacture), (b) their elimination (c) their utilization.
- (2) The effects of gases, smoke, etc., on vegetation.
- (3) The structure of woods, and their identification.
- (4) Vegetable fibres in paper, cloth, etc.
- (5) Vegetable food of game birds and fish.
- (6) Plants poisonous to man and animals.
- (7) Composition of feeds, etc., and the identification of impurities in grain, etc.
- (8) The plants of coal, lignite, peat.
- (9) Soils - in their relation to vegetation.

(Signed) J. H. Faull
